Finding the right job or career often poses a significant challenge for individuals with Asperger's Syndrome ... and for professionals who assist them. Standard career planning protocols and occupational assessments are not designed to evaluate the unique profile of abilities and challenges of those on the autism spectrum.

Finding Employment that Works for Individuals with Asperger's Syndrome is designed specifically for career counselors, coaches, vocational rehabilitation specialists, clinicians, and other professionals who want to be better equipped to guide these students and clients. You will learn:

- What is Asperger's Syndrome (autism spectrum disorder)
- How communication, sensory, and executive function difficulties impact individuals in the workplace
- Why occupational choices should **not** be based on interests
- Four steps to finding the right job match
- How to establish rapport, encourage flexible thinking, deal with anxiety and resistance, and assess work readiness
- Much more!

Information is presented using non-technical language, and illustrated with examples from the presenter's extensive experience coaching hundreds of adults with Asperger's Syndrome.

Barbara Bissonnette is the Principal of Forward Motion Coaching and specializes in career development coaching for individuals with Asperger's Syndrome. She is the author of the award-winning *Complete Guide to Getting a Job for People with Asperger's Syndrome*, the *Asperger's Syndrome Workplace Survival Guide* and *Helping Adults with Asperger's Syndrome Get & Stay Hired: Career Coaching Strategies for Professionals & Parents of Adults on the Autism Spectrum*.
